**Harmony XL PRO**  
*Spectrum of Solutions*

## FAQ's:

- **What is Clearlift on Harmony XL Pro?**  
*The Clearlift tip represents the latest alternative to skin resurfacing and cosmetic surgery.*
- **How does it work?**  
*Clearlift emits short, yet extremely powerful bursts of light which reach underneath the skin's surface; stimulating collagen and breaking apart unwanted pigmentation.*
- **Who is a good candidate?**  
*Across the country we have seen anyone from their early 20s all the way to their 90s get the Clearlift treatment. Clearlift is able to treat all 6 skin types.*
- **How many treatments are required?**  
*During your consultation your provider will assess your skin to personalize a treatment plan for you. Best results are typically seen after 3 treatments, although noticeable improvements may be seen after 1 treatment.*
- **How long does each treatment take?**  
*This will vary based on your personalized treatment plan recommended by your provider. Treatment time varies based on the severity, could be as short as 30 minutes up to 1 hour.*
- **Does it hurt?**  
*The treatment is virtually painless and has absolutely no downtime, making it the first laser treatment for sensitive areas of the body including hands, neck, décolletage and around the eyes.*
- **What is the downtime?**  
*There is no visible evidence of a treatment being performed, thus resulting in no downtime.*
